

**J. Scott Alexander**  
*President and CEO of PyroHMA*

Scott is an entrepreneur, with a heart for effecting change and empowering others by bringing new technologies to industries and challenging the status quo. He is experienced in business development and operational management with skill in leading direct reports as well as cross-functional teams.

Currently, Scott is President and CEO of PyroHMA, an industry changing technology for the fire service. Along with his work with the fire industry, Scott is also currently impacting change in the rare earth sector and water purification.

Prior to PyroHMA, Scott started his career in the healthcare industry, helping to develop the hospitalist model for the industry. After his time in healthcare, Scott joined a private group to assume control of an international construction and housing company serving the oil and gas industry. As Vice-President of Business Development, he led them from start-up to \$32M top line revenue in its first year

Scott is a graduate of Harding University with a B.S. in Chemistry and received his MBA, with a focus in Finance and Entrepreneurship from SMU's Cox School of Business.
