

**Yolanda R. Scott**

Yolanda has more than 30 years of security experience; first with retail loss prevention, but the last 31 years she has been with corporate physical security at Texas Instruments. Yolanda has experience in Incident Management and has led many incidents around the world. She works with teams local and abroad to ensure the safety of all employees during the initial incident through business recovery of the sites impacted by the disaster. Yolanda is currently a security manager and is responsible for security operations at four sites in the North Texas area with a mix of internal security personnel supplemented by about 1400 contract security hours.

Yolanda holds a BAS and MAS in Communications from Dallas Baptist University. Yolanda held several BOD positions with ASIS International. The North Texas Chapter Chair in 2018 & 2019; and is on the ASIS Women in Security Council as the Global Liaison Co-Chair and Pre-background Screening Council. In her spare time, she loves to travel and volunteers with a local church focused on humanitarian efforts; volunteers with the American Red Cross and Dallas CERT; supports New Friends New Life an organization focused on helping women and girls formerly held in sex trafficking & FBI Dallas Citizen's Academy BOD.
